

Important Notice for Plumbers / Builders

DRY TAPPINGS

Applications received after 1 March 2006

All 20mm meter assemblies connecting to 'Dry Tapped' water mains will be installed by South East Water. The assembly will include the meter, dual check valve, hose bib tap, hose connection vacuum breaker and timber stake.

A fee of \$389 per assembly must be lodged at the time of application. This includes the cost of the meter.

When the '*Connection Required Date*' is known, this should be included on the application form or entered into the internet lodgement system.

In the event that a '*Connection Required Date*' is not provided the service will not be connected until a request is made by phoning 9552 3365. South East Water will install the assembly on the requested day.

Please Note: 4 working days notice will be required.

Plumbers will not be permitted to connect to dry tapped water mains for applications lodged from 1st March 2006.

NOTE: This change is for dry tapplings only and does NOT affect wet tapplings or tee insertions.
